

# DINGHY CHAP INSTALLATION

# 1. STEP ONE

**Start from one of the dinghy cones adjusting the fabric below the rub rail.**

## 2. STEP TWO

**Continue towards the bow  
adjusting the holes with the  
handles, oarlock bases & seat  
retainers.**

# 3. STEP THREE

**AB TIP.**  
**Stretch the fabric while putting the chap to ease the installation.**

# 4. STEP FOUR

**Make sure the AB logo is in the center when you get to the bow while adjusting the chap.**

## 5. STEP FIVE

**Once the AB logo is in the center, continue adjusting the chap towards the other cone.**

## 6. STEP SIX.

**Adjust the chap like  
you did in the first  
cone.**

# 7. STEP SEVEN

**Pad to tie the strings.**

**Mark the points where the strings of the chaps will be located, then glue the pads on the tube and tie them.**

---

**YOU ARE ALL SET.**
